

Tilly Jane A-Frame Letter of Support

To Whom it May Concern:

Our company has had the privilege of working at the Tilly Jane A-Frame over the years, and it is always fun to do so. I enjoy re-reading the history of the building each time I go up there. Every time I tell someone in our community that we are doing work on the building, they respond very positively. Many have great memories of using the facility.

Having the building open the public to use has been a great advantage to our community. It draws people from all over the place and is a great benefit to our economy.

Thank You;

Chris Welvaert
