To whom it may concern:

Hood River County Transportation District , d.b.a. Columbia Area Transit is pleased to submit the letter of support for the Oregon Nordics Club proposed project on the restoration of the Mt. Hood A-frame. This project will contribute to the valuable addition of tourism and support for local businesses. In these ever growing times, it is essential to restore and protect what has been a valuable part of history here in the Mt. Hood area.

As a transportation provider in the Columbia Gorge area, we strongly recommend the Mt. Hood area and its numerous outdoor opportunities to all populations: International, Interstate, State and local populations. This project would benefit all of the population groups that come to our area. Please stand with us in support of this needed project.

Ron Nails
