

Ecuador Adventures: Cuy, karaoke, Quito, Cuenca, and climbing Chimborazo

New ONC-PDX member Josh Lawrence will talk about his travels in Ecuador, and his attempts to climb 20,549 foot Chimborazo. You'll learn a lot about the food, the drink, the people, the towns of Quito and Cuenca, and the stability of the snowpack at 19,000 feet! In addition to the climb, the talk will include tips on getting around in beautiful Ecuador, a country that is definitely worth a visit once we're allowed to travel again.
